REPORT PRAISES FIRE AND WATER DEPARTMENTS

HOOVER ACCEPTS SMITH DEFY ON DRY LAW ISSUE

Will Take Opposite Side
From Al On Merits Of
U. S. Prohibition

NO PUSSYFOOTING
ON THIS SUBJECT

That Is Tip On Portion
Of His Notification
Speech In August

Alto, Cal., July 25.—Prohibition will be made a definite issue in the approaching presidential campaign with Herbert Hoover taking the dry side of the argument in a speech accepting the Republican nomination, it was learned here today on good authority.

The Republican nominee, who actually has completed his speech, will come out strongly for enforcement of the 18th amendment and will place himself on record as favoring further steps of prohibition.

His declaration on prohibition, it is said, will be far more emphatic than in his reply to the famous denunciation of Senator William E. Borah last spring, in which the chief appeared to take a middle road attitude.

Hoover does not desire to make prohibition an issue, according to advisers. The circumstances even are such that he cannot do it. He simply will speak his mind, it is said, but by doing so undoubtedly will create an issue which he will dominate the campaign.

Prosperity Big Point

The Republican nominee will emphasize Republican prosperity and a measure of Republican efficiency in governmental affairs his leading issues. He will stress beyond all other issues but the nation as of its importance naturally lies with the voters.

One of the high spots of his speech, which will be his interpretation of the Kansas City platform, is the Republican campaign book, will include:

A careful analysis of the farm problem and a definite constructive plan for alleviation of farm distress.

Will Boost Tariff Plan

A specific declaration in favor of Republican protective tariff, and in such language as to the nominee definitely in the (Continued on Page 4)

PLANS FOR HOME OF EAGLES

House Saturday And
Then Advertise For
Bids For New Home

Plans for the new Eagles lodge can be completed by Monday construction work started immediately following the sale of the land on the lodge property, between the Masonic temple and the Legion home, it was announced today.

The contract for the removal of the house, for which bids have been opened and several received, was awarded to the building committee. The building committee is expected to make the sale of the house, and hold it Saturday afternoon as definite plans are being made for the removal of the property from the new home. The construction have been received from several contracting companies, and none definitely accepted. The general contract for the removal of the house will be advertised immediately after the sale of the house on the lodge property. Plans of the candidates will be stated on the lodge at 3 p. m. today, at the lodge hall, Main st.

TO FIND BODY OF BOY

Police and firemen of Pennsylvania and Ohio today are dragging Ohio river for the body of John W. Cox, 52, of Industry, Pa., who was killed while swimming in the river near East Liverpool at 2:30 p. m. Tuesday.

Midland, Pa. firemen, on being advised of the drowning, first started the search for the body, and to-day the Pennsylvania authorities are cooperating with the Ohio authorities in the hope that the body will be recovered.

The search continued all night today and is being continued to-day.

No trace of the boy's body was

LABOR NOT TO TAKE SIDES IN FALL ELECTION

Non-Partisan Policy Is
Expected To Be Given
Approval Of Unions

TO CONCENTRATE
ON CONGRESSMEN

Leave Presidential Vote
Alone This Year After
La Follette Fiasco

Washington, July 25.—Organized labor does not plan to take sides in the present presidential campaign. Its non-partisan policy is expected to be reaffirmed at the meeting of the executive council of the American Federation of Labor in Atlantic City next week.

Labor will work within both parties to secure election of senators and representatives who are favorable to the federation's legislative program.

While withholding comment in advance of the council meeting, federation officials declared today that organized labor has no grudge either with Secretary of Commerce Herbert Hoover or Gov. Al Smith of New York. William Green, president, and other officials, however, do not believe that the anti-injunction planks in either party platform were strong enough.

Say Injunction Misused

The federation feels that one of the greatest obstacles in the path of labor today is the alleged misuse of injunctive powers by federal and state courts. They point to the coal strike injunctions as examples.

Labor officials have consulted both Hoover and Smith about the injunction question and have requested the candidates to make their positions clear in their acceptance speeches.

Four years ago at a council meeting in Atlantic City, the federation decided to stray from its non-partisan policy and endorsed the La Follette independent candidacy. Senator La Follette polled less than 5,000,000 votes, and carried but one state, Wisconsin, in the electoral college. Proposals have been made to enlist the federation in a new third party movement which would be built up during the next four years and enter the lists with a presidential candidate in 1932. The movement would be centered around the La Follette-Norris Progressive group in the senate.

COOLIDGES WILL FINISH VACATION IN YELLOWSTONE

Lure of National Park's
High Altitude Changes
Plans For Summer

Superior, Wis., July 25.—The magnificent scenery, invigorating air and fine fishing of Yellowstone National park will lure President Coolidge away from the Brule river summer white house between the 10th and 15th of August, International News Service learned today.

Tentative plans have been in the making for the last few days for a departure from here between those dates for Yellowstone. A return to Cedar Island Lodge for the remainder of the season is problematical. The Coolidges may tour the park in the usual brief fashion and come back to the northwoods of Wisconsin, or they may arrange for a more protracted stay and then go straight east to Plymouth, Pa., or Northampton, Mass., for several weeks before returning to Washington.

The unusually enjoyable time Coolidge had during last year's tour of the park, plus the pleas of Mrs. Coolidge and their son, John, are understood to have prompted the decision to journey away from the Pierce estate on the Brule. The president fished constantly, and with great success, all of the five days he was in Yellowstone in the summer of 1927, while Mrs. Coolidge and John found pleasure in the hotel life of the park system after weeks of virtual isolation in the woods.

Also, a nasal ailment known as rose fever of the asthmatic order, troubles the executive annually and the altitude of the park figures to afford relief.

ENGLISH WOULD OUST PADDOCK

Files Protest to Prevent
American Running In
Olympic Games

Amsterdam, July 25.—An attempt to prevent Charles Paddock, American sprinter, from participating in the Olympic games, has been made by Gen. Kentish, British delegate to the International Olympic committee, it was learned this afternoon.

The accusations were based upon statements Paddock was said to have made in a radio talk and go back to the last Olympiad in Paris in 1924.

Paddock was absent training at the Hague today, but will be questioned by Gen. MacArthur.

At a meeting of the Olympic executive committee, Gen. Kentish lodged a protest against Paddock, presenting a newspaper clipping purporting to report the radio speech.

The American runner was alleged to have said that the American finalists in the 100 meters at Paris arranged each to "beat the gun" in turn, forcing the English finalist, Abrahams, to make four false starts thus tiring him out.

Paddock was alleged to have added that, for some reason, the Americans did not execute the scheme, but the American runners at Stockholm had worked out a similar plan.

Shoe Firm Leases Fawcett Storeroom

A five year lease has been taken by the A. B. C. Shoe company, of Columbus, on the Fawcett store room, Main st., it was announced today.

The new company will move into the store room about August 15. The present Fawcett firm will dispose of its music business and members will devote their time to the manufacture of cosmetics as Rainbow, Inc. in the rear of the building on the first and second floors.

The Fawcett company has been established in Salem for 46 years. A 10 day sale is being planned in which all stock and fixtures in the store will be sold.

Quakes Due

Violent Tremors This
Month In Central
America Seen

London, July 25.—Violent earthquakes may be expected in Central America and upon the northeastern rim of the Asiatic continent between now and the end of this month, according to the famous Italian earthquake forecaster, Prof. Raffe Blandini, director of the Geo-dynamic observatory of Faenza.

In an interview published here, Prof. Blandini declares that the earth at the present time is passing through one of its routine crises, and that an earth storm is at hand.

He further predicts violent quakes in Palestine and the Greek archipelago and lighter ones in Crimea and Italy.

"All these shocks," the professor was quoted as saying, "are but the prelude to still greater and wider reawakening of the subterranean forces which has been under way for some time, and will reach its climax next autumn with violent manifestations in the south of Europe."

Prof. Blandini does not believe that earthquakes are merely the result of subterranean dislocations and subsidences, as many suppose. After 20 years research work he has come to the conclusion that they arise from one uniform source, and are due to variation of gravity.

WIFE CONFESSES HUSBAND SLAIN; BROTHER AIDED

Wooster Woman Admits
She Killed Him After
Kin Advised It

CLAIMS HUSBAND
WAS MEAN TO HER

"Drove Me To It," Cries
Widow In Jail; Brother
Admits Connection

Wooster, O., July 25.—Chancey Felton, 50, shortly after noon today confessed to Sheriff Jacob and Prosecutor Walter Mouey, that he disposed of the body of John Gilbert, Warwick farmer, after Gilbert's wife, Ruth, had murdered him last Saturday.

Felton admitted he was in the room when the murder took place in the Gilberts' rented farm home near Orrville.

Mrs. Gilbert and Felton were making a full confession to authorities this afternoon, reports said.

Felton and Mrs. Gilbert, authorities said, had an agreement that if she killed her husband Felton would dispose of the body.

Children Taken Away

She shot him at 3 o'clock Saturday afternoon, according to the confessions. Immediately after the shooting the four Gilbert children were barred from the house by their mother, authorities reported, after the elder girl, Dorothy, aged 11 years, became inquisitive after hearing the shots.

Mrs. Gilbert then sent the children across the fields to Canal Fulton to return with Felton. He brought the children with him in his auto, it was learned, and after supper loaded Gilbert's body in his auto, drove away and then dumped it near the roadside where it was found by a berry picker. Authorities report that the confessions in most parts have been confirmed by Dorothy's story.

Wooster, July 25.—Mystery surrounding the identity of the body of a man with two bullet wounds in his temples and 80 feet of rope attached to his neck, found along the County Line road Monday, was cleared up this morning when the man's wife, Mrs. Ruth Gilbert, 32, confessed that the body is that of her husband John Gilbert, 31, whom she shot to death, according to police here.

Mrs. Gilbert, in making her confession, according to police, accused Chancey Felton, 50, of Canal Fulton, her brother-in-law, of inspiring the murder and of disposing of the body.

Wife Grilled All Night

The confession was made after an all night grilling by police who became suspicious when it was reported.

ALLIANCE MAN SPEAKER HERE

William Campbell Talks
On Various Rays At
Rotary Meeting

A speech on "The Silver Spectrum" was given by William Campbell, president of the William Campbell company, of Alliance, at the meeting of the Rotary club at the Elks home, Tuesday.

The cosmic ray, radio ray, ultra violet ray and x-ray were discussed by Campbell in his speech which was illustrated in an interesting manner by charts showing the seven visible colors.

He explained why sunlight was so beneficial to life, saying that the sun's rays had a chemical effect on the body that was helpful in many ways. The cosmic ray was described as "the seat of all life."

He stated that scientists were now experimenting with an uncharted ray, classified with the radio ray in an effort to transmit power and heat in the same method that radio programs are broadcast.

At the next meeting of the club, the manager of the aeronautics division of the Goodyear Tire and Rubber company, Akron, will speak.

Charles V. Trux, director of agriculture, who was scheduled to speak at the meeting, was unable to attend. He may speak at a future meeting of the club.

Recital at Church Last Night Pleases

A violin and viola recital was given Tuesday evening at the Presbyterian church by Alphonse A. Gailiewicz assisted by Miss Margaret Baumgardner of the Oberlin conservatory of music. The program consisted of violin duets, violin solos, viola solos and violin and viola duets.

For the last year Mr. Gailiewicz has been doing extensive work in viola at the Oberlin conservatory of music in place of Mr. Kessler who is taking his sabbatical leave in Europe.

He is opening a violin studio at 47 Woodland ave. in addition to his class in Cleveland.

Mrs. Hoobler Seeks Re-Hearing of Case

Testimony is being taken today by the Industrial Commission of Ohio on the application for a re-hearing of the case of Mrs. Gertrude Hoobler, South Union ave., widow of Ray Hoobler, insurance agent killed when his automobile was struck by a train at a crossing southeast of Salem, Oct. 6, 1926.

The case is being heard in the council chamber of City Hall.

Mrs. Hoobler states that her husband, when killed, was working, soliciting life insurance policies and that therefore she is entitled to compensation from the commission.

The decision of the commission was returned recently against her. Today's hearing of the case is an application for a re-hearing.

Lindbergh Guest of Banker After Trip

Santa Barbara, Cal., July 25.—Col. Charles A. Lindbergh was at the Montecito home of John J. Mitchell, Jr., Chicago banker today. After remaining on the ground longer than is his wont, Col. Lindbergh went aloft yesterday to cover many miles in a new plane. He flew it from San Francisco here, thence to Los Angeles and back again to this city.

Denounces Flappers

Ruth Elizabeth Schilling, 15-year-old evangelist of the Pentecostal Church in Atlanta, Ga. Miss Schilling delivered an eloquent attack upon her own generation, declaring that flappers are recruits of Satan in her sermon.

WORLD WAR VETS HIT BY INCREASED RATES OF RESERVE SYSTEM

PLANE MAY BE
THAT USED BY
FRENCH FLIERS

Million More Annually In
Interest Paid by Vets
On Certificates

NO CHANGE IN SIGHT

Washington, July 25.—Directly hit by the efforts of the government to check speculative activities through the federal reserve system, World War veterans are paying more than a million dollars a year additional interest as a result of the 1 1/2 per cent increase in re-discount rates. This was disclosed today at the Veterans bureau.

Loans made to veterans on adjusted service compensation certificates are at the interest rate of two per cent above the re-discount rate, according to the law. This rate is charged by the Veterans bureau and the banks, both of which loan on the bonus policies.

Jump Again Is Expected

Several of the reserve banks are on the five per cent re-discount level, meaning that veterans are forced to pay seven per cent interest on their loans. Already the Chicago reserve bank is considering a jump to six per cent and when one bank raises most of the others are likely to follow.

"There is nothing that the veterans bureau can do about the situation to relieve veterans of the unusually high interest rate," a bureau official said. "The law must be carried out."

FLIER REPEATS STORY HE SAW THREE ON FLOE

Russian Makes Official
Report of Incidents
Regarding Rescue

Moscow, July 25.—The Malmgren mystery was again brought sharply to public attention today when Aviator Chuchnovsky made an official report to the Soviet relief commission repeating that he saw three figures on the ice when he located the Malmgren party on an ice floe on Tuesday night, July 10.

This report was made in response to inquiries wired to the Russian ice breaker Krassin by the Soviet relief commission which is trying to clear up the conflicting reports which were received at the time A. Mariano and V. Zappi—the two survivors of the Malmgren party—were picked up by the Krassin the day after the group had been located by the aidman.

Chuchnovsky reiterated his previous declaration that he had seen three human figures on the floe. Two were alive, he said, but the third was lying prone with arms outstretched.

When the Krassin reached the floe only two men—Mariano and Zappi—were found. The erroneous report that Malmgren's body had been taken aboard the ship arose evidently from the aviator's radio-gram that he had located the party and that one member was lifeless.

After being revived Zappi told his rescuers that Malmgren had been left alive on the ice at Brock Island, at his own request, because he had been unable to travel any further.

Steel Wins Over Wood In Ohio River Race For Supremacy

Cincinnati, July 25.—Steel won over wood in what was described today as the greatest steamboat race on the Ohio river, when the steel-hulled Chris Greene, Ohio river packet won his challenge race with the old wooden steamer, Betsy Ann, last night by completing the 26-mile race on the upper Ohio from Cincinnati to New Richmond in 2 hours and 9 minutes, steaming in two boat lengths over its rival.

Thousands of people crowded the banks of the river along the racing course as the two boats fought for the supremacy of the upper river. An estimate of the number of people that witnessed the race is almost impossible.

Casting off at exactly 5:06 from Cincinnati, the Chris Greene which took the lead at the start finished

Apprehend Suspect In Middleton Case

Middletown, July 25.—W. J. Lucas apprehended at West Liberty, Ky., yesterday afternoon, was to be returned here this morning in custody of Police Chief William Raymer and detectives, to face charges growing out of the murder of John W. Cox, 52, Middletown, carpenter who was lured to a wooded section near here Saturday morning, robbed of \$300 and slain.

Cox was lured to his death by a forged note purporting to be from City Manager L. A. Waldner police stated.

Steel Wins Over Wood In Ohio River Race For Supremacy

2 minutes ahead of the Betsy Ann, veteran racing packet.

A pair of gilded antlers, won by the Betsy Ann in the old river days, was at stake. These were presented to the Chris Greene at the finish of the race with a statement which read, "The Betsy Ann came from a racing family. For 30 years we have gone unchallenged with a final victory. In handing these horns to you we ask that you give them a place fitting with their history and honorable career. We are pleased to hand them to you, our friends of the upper Ohio. Signed, Betsy Ann."

When it appeared that the Betsy Ann would lose, Mate E. C. Reynolds is reported to have taken down the antlers mounted on the ship's bell and remarked casually, "Aw hell, I never did like the things anyway."

IMPROVEMENTS LISTED BUT NO RATES LOWERED

Chief Engineer Manning

Makes His Report

FAILS TO MENTION
LOWER RATES HERE

Insurance Remains Same
But Word Expected On
This Matter Soon

A favorable report of the inspection of the city's fire and water departments by H. J. Manning, chief engineer of the Ohio inspection bureau, was received today by Safety Director Rex W. Ruggie and Fire Chief Vincent L. Malloy.

The report lists the many improvements in the pumping station and the improved conditions in the fire department, and spoke highly of the increased efficiency of both departments.

Since an inspection made in the city in October, 1924, many improvements in both departments have been made, Manning's report states.

Cites Water Improvements

In the pumping station, a 10 inch water main has been laid throughout the manufacturing district; the distributing system has been re-inforced, and new steam hydrants have been installed.

The old reserve pump, used by the city for many years, and said to have been one of the causes of the unfavorable report in 1924 has been replaced by a new pump with one and one-half millions of gallons pumping capacity.

All wells have been cleaned out, repaired, and conditioned up to requirements the report adds.

Ladder Truck Recommended

The increase in the personnel of the fire department, the purchase of the new La France 1,000 gallon capacity pumper fire truck, and the installation of the alarm system in the manufacturing district are listed as the improvements in the fire department.

It states that as soon as finances are available, the efficiency of the department will be increased further through the purchase of a ladder truck and the addition of more men to the department.

W. S. Winnard of the inspection bureau stressed the need of more men in the department and the necessity of a ladder truck, in a report while in Salem, but due to the lack of funds the recommendation will be held over until 1929.

No Mention of Insurance

Salem's fire department consists of nine paid men. This is an increase of four since 1924, when only five men were on the payroll. Four men work on the day shift of 24 hours, five at night.

In five years the condition of the (Continued on Page 4)

FRIGHT CAUSES WOMAN'S DEATH

Mrs. Moon, N. Waterford,
Heart Attack Victim
Near Her Home

Mrs. John Moon, 71, died suddenly at 9:30 p. m. Tuesday at her home near New Waterford following a heart attack brought on by fright.

Mr. and Mrs. Moon and their daughter, Esther, were returning from an automobile ride when they came upon a car parked across the road.

The car was at the top of a hill and as Moon had to stop, he stalled his engine and could not go on up the hill without help. Mrs. Moon got out of the machine and although the car started after it was backed down the hill she refused to ride home, which was just a short distance.

She had not gone far when she suffered a heart attack and was picked up by a passing motorist. She died within a few minutes after she was taken home.

Mrs. Moon was born in County Durham, England. She was united in marriage with George Garrod and later they came to East Palestine and she had made her home there and in the vicinity of New Waterford ever since. Mr. Garrod died in 1914 and in 1920 she was united in marriage with John Moon, who survives.

Other survivors are 9 children, John Garrod of Lisbon, Alice of East Palestine; Mrs. Mary Ann Snyder of Lisbon; Mrs. George Zeigler, Susan, Esther and William of East Palestine; Herbert of New Waterford, and Helen of Salem; and one sister, Mrs. Annie Holmes of England.

Funeral service will be held at 2 p. m. Friday at the Methodist church in New Waterford, where she was a member. Rev. Reed will have charge and interment will be in East Palestine.

What? No Fights

La Paz, Bolivia, July 25.—Bull fights have been prohibited in this city.

INTO THE LIGHT

Out of a shadowed world where she lived twenty years, out of a somber midnight that never knew a dawn, Marcella Calkins of Milwaukee, is tremblingly beginning a new life in a new world. Marcella Calkins, blind since birth, sees!

This young woman, 20 years of age, knew those she loved simply by voices. Now they are strange figures from another world whom she doesn't know—until they speak.

For twenty years the common, everyday objects that she used—pins, books, clothing, food—distinguished themselves to her by touch. Now they are mysteries to her as she looks at them—until she reaches out and touches them.

For twenty years the hills and forests, the sunshine glinting on the waves which break on Lake Michigan's shores, the blue of the sky and the white of the clouds, the far-flung horizon have been to this educated, intelligent young woman vague imponderables that her mind wrestled with in the darkness.

And today they are no less strange and mysterious things—beautiful, yes; but terrible, too, and awesome. For in a little less than a month this girl's mind had to grasp, through this new and strange sense, sight, what the mind of the normal individual slowly gathers up over a period of 20 years.

It is a strange world for Marcella Calkins but she will gladly reconstruct her life to meet new conditions.

CAMPAIGN SLOGANS

What will be the campaign slogans this fall? Who among the middle-aged voters today has forgotten some of those stirring phrases and colorful and catchy banners, with their multi-hued lettering, which marked campaigns of other years?

It was inevitable that this should have been a year rich in slogans. The presidential campaign was destined to be attended by much that is spectacular, and the already considerable number of slogans bids fair to increase as November draws near.

There already is "Who But Hoover?" And there is "Al for Al and 'All for Al." And unless everyone misses his, or her, guess, Al's name will be found coupled with the first syllable of a substance known as methyl hydrate, more familiarly known as alcohol.

Americans in various parts of the world have been shouting "Hoover There," as a campaign song, and "Yeast Side, Wet Side" has made its appearance. Hoover has been referred to as "Not merely a candidate, but an opportunity." Smith's "brown derby" is sure to be featured by his emotional supporters, and Mammie O'Rourke is certain to make her appearance on New York's east side.

Abundant and bombastic as some of the war cries of bygone campaigns may seem to the more sober and the word is used advisedly—and dmatior-of-fact era of the moment, it must be admitted that slogans have, frequently been of service ythrough presentation to the rank and file the crystallization and epitome of long arguments, and of an appeal to the voter's fancies through the agency of easily understood and appealing catchwords.

One recalls the "Me for Ma" which unquestionably had a lot to do with the election of Mrs. Ferguson as governor of Texas. And then who does not recall the delightful irony of that "He kept us out of the war" slogan which the Wilsonian Democrats shouted?

One of the most enduring slogans is that which Thomas Jefferson originated and which the so-called "democracy of the current writing" eternally chants in lieu of something more definite: "Equal rights for all, special privileges for none."

Back in 1840 there was the alliterative phrase, "Tippecanoe and Tyler, Too!" Another slogan which will

always live, but which was not political, was the crisp, clear-cut "Fifty-Four-Forty or Fight." Of course, they didn't fight, and the boundary was not set at 54 degrees and 40 minutes of north latitude, but the phrase was a good one and served the purpose for which it was intended.

There was Horace Greely's plug hat and Roosevelt's sombrero and Rough Rider outfit, and Harrison's log cabin and keg of hard cider. No one has forgotten Harding's "Back to Normalcy," and any number of others which have made themselves living mottoes for all time.

What Others Say

PENNSYLVANIA; SOLID SOUTH

Since there always are some Democrats who see rock-ribbed Republican Pennsylvania torn from its political mooring and turned to their party, so also are there Republicans who envision the breaking up of the solid Democratic south. Ordinarily, however, their speculation gains little attention. As not so many miracles have been happening lately, both such predictions are held by the average individual as too remote to consider, or that one is just about as likely or as unlikely as the other. While the Republican of Pennsylvania recognizes that there is sufficient Smith sentiment in this state to furnish a lively contest, they say that the Republican habit of the state is too great to be overcome. Admitting that they add that, on the other hand, a considerable group of Pennsylvania Democrats will support Hoover. As for the south, the trained political observers continue to doubt that any of the so-called "solid group" will bolt Smith, but there are many predictions that Hoover will carry all the border states.—Pittsburgh Post-Gazette.

RUSSIA AND FINLAND

Above the Gulf of Finland, which is a part of the Baltic sea, is a republic of about 150,000 square miles full of lakes and largely forested. This is Finland, which used to be a part of the Russian empire, but obtained autonomy as a result of the great war. Finland is a rugged and cold country, but it has a cultivated area of 5,000,000 or 6,000,000 acres. Its population is something less than 4,000,000 of people, most of whom are Finns, with a language of their own. A distinguished Indiana man wrote interesting letters from Helsinki. Otherwise we have had little contact with Finland and are not deeply moved by its national affairs. Lately the dispatches say that Finland and Russia are about to come to blows. Russia is just across the bay and is reported to be massing troops in the Leningrad (St. Petersburg) district. Something like 200,000 or 300,000 troops, it is said, are in a watchful state along the northwestern border of Russia. The Finns, the Russian apologists say, have been obnoxious to active in suppressing Communists. Otherwise Finland does not pretend to understand why Russia should be mobilizing.—Indianapolis News.

ALVARO OREGON

The assassination of Gen. Alvaro Obregon, former president and at the moment of his death president-elect of Mexico, fills with grief and horror the hearts of civilized men everywhere. With the hand which fired the fatal bullets it would be idle to concern ourselves specially here, except as it was a product and an instrument of peculiar Mexican conditions of the manual and blood-dripping past, or which too often take possession of men's souls in that and some of the other Latin-American countries. In the crazed mentality of Obregon's murderer there was, of course no room for the reflection that his victim held the esteem of the majority of his fellow citizens, as well as of nations far and near, as perhaps the only living Mexican who had the brains, the personal prestige, and the courage to rescue the republic from its travail. Not since the days of President Diaz, nearly two decades ago, had Mexico produced a public man of sterner fibre, of finer civic virtue, of loftier and firmer idealism. Obregon won his spurs as a soldier in the chaos of revolutionary upheavals which nearly engulfed the republic after the overthrow of the Diaz dictatorship. If throughout the years of his fighting career he was a partisan, his partisanship always had less to do with personal ambition and personal rivalries than with his desire to make permanent the essential gains of the revolution.—Detroit Free Press.

The Stars Say—

For Thursday, July 26.

By GENEVIEVE KEMBLE.

AN unpropitious astral condition may account for much contention and strife on this day. The tendency to turbulence and violence in all departments of being should be held in check if any progress is to be attained. New ventures and undertakings are under a baneful ray, carrying a menace of fraud and treachery, and generally the situation promises disturbance and disruption.

Those whose birthday it is may anticipate a year of disturbance and disruption unless they resolutely decide to check all inclinations to turbulence and strife as well as to acts. New projects are under a menacing ray threatening fraud or deception. Make all changes cautiously. A child here, as has been said, may require most careful training to inculcate self-control and prudence in every direction as it is predisposed to tumult and rebellion as well as self-indulgence.

By correlating things upon the earth to their correspondences in the sky knowledge may be gained in every department of life.—C. L. Linn.

Westminster abbey, which is now proposed to enlarge, is the burial place of nearly 1,200 persons.

MUMPS CAUSE LAUGHS; SERIOUS AFFLICTION

By Royal S. Copeland, M. D., United States Senator from New York, Former Commissioner of Health, New York City.

We get no sympathy if we have the mumps. This is one affliction which usually causes our friends to laugh. Of course, this is because the victim looks so funny.

While there is no particular time of year when mumps are not prevalent, yet the spring and fall find this disease almost epidemic among children. Just what causes mumps has not yet been discovered, but it is believed to be a disease of germ origin.

As a rule boys suffer with mumps more than girls and only an occasional adult. It is infectious, or "catching," and on this account spreads rapidly in a school.

The incubation period, that is, the period between exposure and the first symptoms, is from two to three weeks. Then there is a fever. It may be slight or it may rise to 102 or 103 degrees.

The first symptom, even before fever is noticed may be pain below the ear. Then the swelling begins. It starts below the lobe of the ear, forcing the lobe outward. Soon the swelling progresses and spreads to the tissues back of the ear and in front of the ear.

As the trouble progresses, it involves the glands along the jaw and under the tongue. It then passes to the other side of the neck.

This swelling and the soreness and pain caused by it, make eating and opening the mouth a very painful process. Accompanying the swelling

Editorial Quips

It is no trouble to be a political leader if you know which way the crowd is going.—Pathfinder.

It took prohibition to make a leading citizen out of a small farmer who had nothing but 50 bushels of corn and a 50-gallon barrel of syrup.—Florida Times-Union.

Have you noticed how the foreign born pacifists who don't believe in American national defense, cheer when their side in an Old world war wins?—Detroit Free Press.

Candidate Hoover's speech of acceptance will be made in California. We trust he won't begin his address by explaining that the weather is most unusual.—Chicago News.

A comical reference to the Pinetopka river in Nicaragua appears in a paper in Philadelphia which is only about 150 miles from the Pinetopka in Virginia.—Detroit News.

Well, they're arrested somebody for the murder of Big Tim Murphy, so apparently the Chicago attitude is that they can put you in jail for that, after all.—Kansas City Star.

It has been estimated that there are 75,000 waiters in New York City, but the general public is left in the dark as to how much they measure from tip to tip.—Louisville Times.

A lexicographer cites a word in our noble language which has no less than 36 meanings. By a judicious arrangement of four or five thousand such words, one produces what is known as a party platform.—Detroit News.

Twenty Years Ago

(Issue of July 25, 1908.)
East Liverpool.—Much excitement has been occasioned here by an alleged discovery of gold in the sand underlying the heart of the city.

L. M. Fawcett, of Cleveland, who is engaged in the manufacture of gas mantels, has been visiting relatives and friends here for several days.

Pittsburgh.—One life was lost and damage estimated at \$250,000 resulted from a series of storms that swept over Pittsburgh and territory Friday.

Columbiana will soon begin the erection of a nine-room addition to its high school.

Miss Hazel Ayres, pianist at the Kuyser Music store, left Saturday morning for Dayton to visit friends and relatives for several weeks.

Richard Finley, who is employed in Cleveland, is spending two weeks with his parents here.

Berlin.—The German automobile in the New York-to-Paris motor car contest arrived here at noon Friday. Enormous crowds assembled and cheered as the car passed through the streets. The arrival of the car is regarded as a German victory.

J. A. Mounie, of Main st., was given a surprise by 32 relatives Friday evening in celebration of his birthday anniversary.

Boston.—Norman Butler and Delbert Davis, left Friday afternoon for the wilds of Pennsylvania, where they will camp.

Paul Huxley and Charles Owen, of Youngstown, were guests over night of Paul G. Hildreth.

Mrs. James Probert, of East Seventh st., who has been ill, is improving.

Lisbon.—A new move in county athletics is being made and it proposes to broaden the scope of the Columbiana County Athletic association so as to include several other cities and change the name to the Ohio Valley High School association.

ing may be ear ache and some disturbance of hearing. The ear symptoms are not observed in every case.

Many children go through mumps with no other discomfort than that of being the butt of the jokes of the family and friends. They are the lucky ones.

There are sometimes complications such as inflammation of the breast, enlargement of the thyroid gland and swelling of other glands. These are uncommon and need give you no worry.

The chief thing to do in mumps is to keep the affected child from other members of the family. Be sure the bowels move freely, give liquid or semi-liquid diet and keep the patient in bed during the period of the fever. If medicine is required your doctor will prescribe it. Fortunately mumps rarely recur in the same individual.

Answers to Health Queries

H. J. Q.—What treatment do you suggest for nervousness?
A.—First of all build up the general health and in this way benefit the nervous system as well as the entire body. Outside recreation and diversion are often helpful for a nervous condition. For further particulars and a self-addressed, stamped envelope and repeat your question.

D. L. P. Q.—What should a girl weigh who is 14 years old and 5 ft. 1 1/2 in. tall?

2.—Will skating, walking, running and much exercise help to reduce me about the hips?
3.—What will make my eyelashes grow longer?
4.—What can I do for bunions?

A.—For her age and height she should weigh about 109 pounds.

2.—Yes. You should also watch your diet. For particulars send a self-addressed, stamped envelope and repeat your question.

3.—You might try applying 1 per cent yellow oxide of mercury ointment to the lashes at night.

4.—They require special treatment. For full information send a self-addressed stamped envelope and repeat your question.

M. W. Q.—What causes spots in front of the eyes, especially when in a strong light or out in the open. They appear to float, the movement of the eye itself?

A.—May be due to a circulatory disturbance or biliousness. Try building up your general health and be sure that the system is kept clear. If there are no results, have the eyes tested. For further particulars send a self-addressed, stamped envelope and repeat your question.

W. D. E. Q.—What should a girl weigh who is 15 years of age and 5 ft. 6 in. tall?

2.—What should a girl weigh who is 14 years of age and 5 ft. 2 in. tall?

3.—How can I stop biting my fingernails?

A.—For her age and height she should weigh about 124 pounds.

2.—For her age and height she should weigh about 110 pounds.

3.—Try painting the fingers with tincture of astringent. Use a little will power.

A. R. Q.—What will make the legs stout?

A.—Gaining weight in general should help and exercise will develop the muscles.

COLUMBIANA

At a meeting of the Columbiana board of education Monday evening the contract for furnishing coal for the school building the coming winter was awarded to H. M. Hoover. The 1929 budget was adopted and further plans for the improvement of the school grounds were made.

The work on the concrete retaining walls on South Elm st. and at the rear of the auditorium has been completed. The playground at the north will be filled in and surfaced and later the southeast section of the school lawn will be regraded and planted in grass.

The Sunday evening union services were held in the Methodist church with a good attendance. Rev. G. A. Park was the speaker of the evening.

There will be no preaching services next Sunday in the M. E. church owing to the absence of the pastor, Rev. C. F. Jones.

The Misses Garnet Miller, Betty Britten, Katherine DeWilder and Louise Fullerton will enjoy a week's camping at the Y. W. C. A. camp Y.O.s. from August 4 to 11.

Mrs. Nettie Feiler will entertain the Do-Do-Do in club Thursday afternoon at her home on West Park ave.

Dr. and Mrs. S. P. Graham and son, LaVerne has returned from a week's motor trip to Niagara Falls and points in Canada.

Mr. and Mrs. Hardy Ham, Philadelphia, and Mrs. Mary Benninger and Ralph Benninger of Allentown, Pa. were Sunday visitors of Rev. E. F. West at the Reformed parsonage.

Relatives have received word of the death at Kalamazoo, Mich., of one of Columbiana's oldest citizens, C. C. Zieger. Details of the death are lacking, but the body will be brought here for burial.

Mr. and Mrs. H. A. Keller and Mr. and Mrs. Fred Thomas, who are touring the western states by motor, have arrived safely in California.

Mr. and Mrs. H. C. McCammon, Lisbon, and David Walters and Mr. and Mrs. D. T. Holloway were Sunday guests of Mrs. Cora Crawford and family, North Main st.

Members of the Columbiana council and a number of other interested business men motored to Toronto Tuesday and were the guests of the P. & O. company in a trip through the power plant.

Mr. and Mrs. Walter Crawford and son, Lloyd, accompanied by Mr. and Mrs. L. Pike of Signal, spent Sunday at Rock Springs Park.

Mr. and Mrs. Bert Dickinson and family will move this week from East Salem st. to their newly purchased home on North Main st.

E. L. Dieffenbacher and A. J. Dickinson are spending the week at Lake Chautauque, N. Y.

Harry Trol, Youngstown, visited Sunday with his mother, Mrs. Irene Trol and family, North Main st.

Hiram Bye of Youngstown visited Sunday at the home of Mr. and Mrs. James Nolan, North Main st.

W. T. Holloway was in Youngstown on business Monday morning.

J. P. Buchman, Cleveland, was a Columbiana business caller Tuesday.

COURT NEWS

Would Be Citizen

A declaration of intent to become a citizen of the United States has been filed with Clerk of Courts Frank Ballantine by Vasilios Nyktas, a native of Greece, a restaurant operator and residing at 133 Main st. Salem. The applicant arrived at the port of New York July 12, 1913.

Lease Oil Land

S. O. Hughes and his associates have leased 265 acres of land in Madison township for oil and gas purposes, according to leases that have just been filed for record. J. S. Windram and others have leased to Hughes 90 acres and W. E. Fife 10 acres, while Albert Smith has leased his farm of 165 acres.

Leases Store Room

Ida A. Fawcett and others have leased for a period of two years for an aggregate rental of \$2,400, the building at 99 Main st., Salem to the A. B. C. Chain Shoe stores of Columbus. The lessee has also obtained an option for the renewal of the lease at the expiration of the two year term.

Sues Insurance Company

Claiming there is \$250 due him for sick and accident benefits due on an insurance policy, Clifford B. Guy through his counsel Metzger, McCarthy & McCordick of Salem has filed a petition in common pleas court against the Mutual Benefit Health & Accident association.

The plaintiff claims that he paid an agent for the company at Alliance \$58 premium for the policy Aug. 1 last, and that he was taken ill Dec. 28 last, and under the terms of the policy he has received no benefit.

Real Estate Transfers

Real estate transfers have been filed for record with County Recorder Paul H. Smith as follows:

Gus Alexander and wife to Steve Manas part lot 370 Fifth st., East Liverpool, \$5,000.

Minnie Zeyfang to Bertha M. Price 30.12 acres section 24 Center township, \$1.

William H. Panrake to John L. Clutter 89 acres section 27, Middleton township, \$3,000.

Perpetual Savings & Loan Co. to Rose Hawkins lot 195 Potter addition, Hanoverton, \$825.

Affidavit for transfer of real estate inherited from Dominic Gallagher, Jr., by Margaret Gallagher, 34.31 acres section 36 Franklin township.

Margaret Gallagher to E. E. Payton and wife same tract, \$1.

Raymond S. Vaeger to George W. Allen part lot No. 1 Carr's addition, Salem, \$10.

T. E. Mackall to Carl Rosenbaum lot 249 Negley, \$1.

Bertha H. McCave to Chauncey McCandless lot 859 Appraiser's addition, Salem, \$1.

Washington — A commission of women is attacking the "complete" school system, with which the question of women's nationality has fallen through international marriage. Miss Dora Stevens, chairman, says: "A woman may find herself possessed of several nationalities or of none."

No Rubbish Will Be Permitted Now On Munich Streets

Munich, July 25.—Henceforth, it will cost one mark or 24 cents, to

throw away pieces of paper, orange or banana peel, etc., in the streets of Munich. All members of the uniformed police force have been instructed to "warn" offenders, who must pay the sum stated for the "warning." A receipt will be given.

The system has already been tried out on a limited scale, and the result in the way of cleaner streets was so gratifying that the new order was issued.

Leonard Will Take University Course

Lisbon, July 25.—County Supt. of Schools H. C. Leonard has gone to Columbus where he will enter Ohio State university to take a short

summer educational course. Before leaving Lisbon he announced that a number of applications had been placed on file from these desiring to teach in rural schools, and that less trouble will be experienced this year in obtaining teachers than in former years.

Chicago's Subways Pushed For Exhibit

Chicago, July 25.—At present the largest city in the world without a subway, Chicago expects to have an underground system of transporta-

tion in operation the year of the 1933 World's fair. Completion of the subway at that time has been promised by Michael J. Faherty, president of the board of local improvements. The city recently appropriated more than \$600,000 for drawing of preliminary

plans for the subway. The business of a manicurist is threatened by the invention of a new electrical machine, which it is claimed will do in five minutes the work which it takes the manicurist 35 minutes to perform.

SOCIETY

Stanciu-Popovitch
Miss Aurelia Stanciu, daughter of Mr. and Mrs. J. A. Stanciu of Salem, and Victor Popovitch, son of Mr. and Mrs. Steve Popovitch of Sharon, were united in marriage at 3 p. m. Saturday at St. John's Catholic church in Fairfield, Pa., by Rev. Hosa of McKeesport.

The bride was attended by a matron of honor, Mrs. John Putko of Youngstown, and four bridesmaids, Miss Viola Stanciu of Salem, Miss Julia Dieck of Sharon, Miss Julia Kleon of Salem and Miss Helen Shane of Youngstown. John Putko of Youngstown was the best man.

Immediately after the ceremony a reception was held at a club house in Sharon. Guests were present from Aurora, Ill., Warren, Cleveland, Youngstown, Alliance, Detroit, Erie, Pa., and Salem.

Mr. and Mrs. Popovitch will leave Sunday for a two weeks motor trip through Canada and the west.

Mrs. Popovitch was graduated from Salem High school and the Salem Business College and was a student nurse at St. Elizabeth's hospital in Youngstown. Mr. Popovitch was graduated from the Sharon High school and is manager of a grocery store and butcher shop at Sharon where they will make their home.

Honors Relatives
Mrs. M. E. Cobb entertained a group of relatives Tuesday at her home, McKinley ave., in honor of her brother and wife, Mr. and Mrs. S. R. Barber of Scranton, Pa. Mr. and Mrs. Barber have been enjoying an automobile trip through Canada and the northern states and are on their way home.

Dinner was served in the evening and the remainder of the time was spent visiting. Mrs. Fred Bushen and son, John, of Toledo, were among the out of town guests. Others were from Sebring, Damascus and Salem.

Double Eight Club
Mr. and Mrs. Edward Shriver extended hospitality to their club associates Tuesday evening at their home, East Elm st.

Progressive euchre was the engaging diversion and first prizes in the games went to Miss Cynthia Hiscox and Robert Hacker. Mrs. Emma Angler and John Shriver received the consolation prizes.

As a concluding pleasure the hostess served a lunch. Miss Hiscox will entertain the members in two weeks at her home, East Pershing ave.

Successful Workers Club
Plans were made to attend a campfire on July 31, in the Brantingham woods, near Winona, at a meeting of the Successful Workers Girls Four-H club Tuesday afternoon at the home of Mrs. Ralph Huston, south of Salem.

In two weeks the girls will have an all-day meeting at the home of Shirell Green, Depot rd., with a picnic dinner at noon.

At that time Hazel Vincent and Harriet McArthur will give a demonstration and games will entertain.

Hostesses at Luncheon
At a beautifully appointed luncheon, Mrs. B. S. Ambler and Mrs. Harold Sasser, of Washington, who are spending some time here, entertained 18 friends Tuesday at McKinley Inn, McKinley ave. The affair honored Mrs. Frank Brainerd, of Brielle, N. J. The afternoon hours were spent informally.

Out-of-town guests were Mrs. W. H. Koll, Washington; Mrs. J. R. Thomas, Mantua and Mrs. Henion, of Chicago.

Mrs. Hannah Maule and daughter, Miss Esther Maule, returned Wednesday from a trip, which included Detroit, Mackinac Island, Duluth, Minneapolis, Chicago and Benton Harbor. They were gone four weeks.

Mr. and Mrs. Ed. Tonkey of Cleveland; Mrs. Annie Withstone and children of Old Town and Mr. and Mrs. Joe Elck of Niles, visited Tuesday with Mr. and Mrs. Frank Launey, Rose st.

Mrs. Ernest Hurd and daughter, Jean, of Maplewood, N. J., and Mrs. W. H. Van Fossan and daughters, Jean and Virginia, Lisbon, were guests Tuesday of Mrs. S. W. Ramsey, Lincoln ave.

Forest L. Coy, manager of the A. & P. store, at 35 Main st., is taking a week's vacation from his duties. Mr. and Mrs. Coy left Wednesday morning for Cleveland to spend a few days.

Mr. and Mrs. Lindley Steer of Pasadena, Cal., are visiting a few days with relatives in Damascus, Winona and Salem. Mr. Steer is a brother of W. J. Steer of Winona.

Mrs. T. B. Seekins left Wednesday morning for Cuyahoga Falls, where she will spend a few days with her son, and wife, Mr. and Mrs. A. W. Seekins.

Mrs. Paul Holwick and children of Brooklyn, N. Y., have returned home after spending about three weeks with relatives and friends in Salem and vicinity.

Mr. and Mrs. C. L. Kaley of Chicago and Miss Helen Kaley of Salem, have returned after spending a few days with relatives in Cleveland.

Miss Wilkie Racer of Marietta, is visiting a few days at the home of Mr. and Mrs. E. H. Gausied, Lundy st.

Karl Howell, Washington st., who underwent an operation last Friday in the Central Clinic hospital, is reported to be getting along well.

Charles Wilhelm returned Tuesday evening from Pittsburgh, where he spent a few days with relatives.

THREE STUDENTS SUE FOR ARREST

Ask \$45,000 Damages Of Belmont Sheriff After Hours In Jail

St. Clairsville, July 25.—Three suits demanding an aggregate of \$45,000 damages for false arrests were filed against Sheriff Clyde Hardesty, of Belmont county, today by the parents of three high school students who charged they were arrested in company of a girl friend Saturday night for no obvious reason.

The students who filed the suits are: Mayboud Murphy, 19, Clarence Ewers, 18, and John Kinsey, 20.

According to the suits, all four were held in county jail until Sunday noon though no charge was filed against them.

Sheriff Hardesty claims the quartet were loitering in front of the county court house.

Murphy is the son of the postmaster at Maynard, O. The Maynard postmaster is also justice of the peace in the Belmont county village.

The name of the girl in the party was not made public.

PROHIBITION IS LAWYERS' TOPIC

American Bar association To Discuss Dry Laws At Convention

Seattle, Wash., July 25.—That the prohibition law was to be one of the principal topics of discussion before the convention of the American Bar association, was evident today as the 51st annual session opened.

Touching upon bootlegging as related to crime, Jacob Marck Lashley, president of the St. Louis Bar association, reported:

That organizations of criminals in many of the larger cities are being financed by bootleg profits.

That public officials are often bribed with profits from the same source.

That such conditions are "erecting disrespect for all laws and the integrity of public officials is being questioned to an alarming extent."

Among other remedies outlined in his report, Lashley suggested that either the prohibition laws be rigorously enforced or else repealed.

Justin Miller, dean of the law school of the University of Southern California, will point out to the association the need of revision of criminal procedure.

WORLD WAR

(Continued From Page One)

up are paying from \$1.50 to \$2.50 more a year for their loans than when the rate was 3 1/2 per cent.

No Change In Sight
There apparently is nothing in the financial sky to indicate that the federal reserve system may change its policy toward the easing of the tight money situation until speculative activities on the stock market are checked and brokers' loans are pushed downward. Most officials here believed that there might be further increases in rates, of at least one half per cent, before the downward movement was resumed.

About a year ago, with the money situation tight, the reserve board started in to ease the tension, all bank re-discount rates having been decreased to 2 1/2 per cent.

Relief Brought Speculation
The tension was relieved almost immediately, but with the wave of easier money came a tremendous increase in transactions in stocks that by February had forced loans to brokers and dealers on security of stocks well over \$4,000,000,000 from the member banks in New York City alone.

The board then reversed and started out to "tighten things up." Diversion of money from the speculative markets has proved a difficult task. Rates have skyrocketed, with industry and commerce paying more, but the speculation has continued.

Non-Union Man Is Hurt; Four Arrested
Athens, O., July 25.—One non-union miner was slightly wounded and four alleged "rioters" were lodged in jail here as the result of a disturbance near here today.

Walter Brown, 24, was fired upon when he refused to halt when ordered to do so by a mob of union sympathizers, he reported. Brown was driving a truck which was riddled with bullets. Brown came here and returned to the place of the alleged assault with the sheriff who arrested four men.

The men arrested gave these names: John and Walter Wise-cup, Frank Labors, and David Smith. Brown said he was positively certain that the Wise-cups and Labors were in the crowd of men that attacked him.

Woman Rioter Fined

Cambridge, July 25.—Marking the first time a woman has been sentenced in Guernsey county to a term of participation in mine strikes disturbances, Mrs. Lottie Gifford of Lore City, was given a sentence of 30 days in jail and fined \$50 following her conviction on the disturbance charges here yesterday. The court suspended the jail sentence.

Break Theft Ring

Marietta, July 25.—With H. O. Morgan, Parkersburg, W. Va., in custody today, police believe that the ring of automobile thieves who are alleged to have stolen cars in and about Akron and disposed of them to West Virginia farmers has been completely broken.

Breaks in Pond

Coshocton, July 25.—Funeral arrangements were being made today for Ernest Rusk, 36, of Chili, who was drowned while bathing in a pond near West Lafayette.

ELKS LODGE MEETING

THURSDAY EVENING, JULY 26, 8:15. LUNCH SERVED. 17th

Colonel Williams, Suh!

She's just seventeen, is Marion Williams of Paducah, Ky., but she's Colonel Williams, Suh! by virtue of a recent appointment by Governor Flein D. Sampson. Her military rank was conferred because of her activity in aiding the work of junior agricultural boys and girls.

LITHUANIA AND POLAND ON EDGE

Danger of Conflict Seen In New Dispute; Polish Soldier Is Killed

Berlin, July 25.—Danger of a conflict between Poland and Lithuania again gains the eastern horizon today.

A dispatch from Vilna quoted the newspaper Glos Prawdy as saying that one Polish soldier was killed and several others wounded in a clash with Lithuanian border patrols.

The Poles claim that Lithuanian troops have been concentrated on the frontier.

Warsaw, July 25.—The Lithuanian firebrand threatens to start a new war and it must be extinguished immediately," said the newspaper Glos Prawdy, organ of Marshal Pilsudski, today.

Polish newspapers comment bitterly over the Lithuanian note to the League of Nations, complaining of Polish military maneuvers near Vilna.

According to press reports, Lithuanians invaded Polish territory and destroyed frontier markers.

HOOVER

(Continued From Page One)

"high tariff" class of political economists.

A demand for a strong national defense, possibly even to the extent of demanding the strengthening of the American navy pending further international disarmament treaties.

A declaration in favor of restrictive immigration with an expression that the present law is partially responsible for American prosperity.

Endorses Nicaraguan Policy
A declaration in favor of the outlawry of war and for world conferences to develop arbitral means of ending international disputes but without endorsement of the League of Nations.

A declaration in favor of enforcing the Monroe doctrine and an endorsement of the Coolidge administration record in Nicaragua and other Central American republics as justified under that doctrine.

Throughout his speech, Hoover will praise the record of the Republican party in recent administrations, he will declare for the fair treatment of business, without governmental interferences, but he will call for the protection of the rights of citizens.

WIFE CONFESSES

(Continued From Page One)

ported that Gilbert was not seen since Saturday night.

"He was terribly mean to me and drove me to do it," Mrs. Gilbert said in explaining her motive.

Her four children, Dorothy 11, Leonard 8, Arthur 6, and Jessie 3, peeked through the barred jail corridor as police questioned their mother. The children "seemingly did not know what it was all about."

Says Felton Urged Her
Mrs. Gilbert stoutly denied any relations with Felton, maintaining that Felton urged her to "get rid of her husband because he failed to provide clothing for her and her children."

Gilbert lived on a farm and made his wife and children do all the work, Mrs. Gilbert said.

She also accused her husband of "hanging around" a member of Felton's family.

Felton, so far, has not made any statement to police, declaring only, "I didn't shoot him."

The detailed confession was not made public.

Drowns In Pond

Coshocton, July 25.—Funeral arrangements were being made today for Ernest Rusk, 36, of Chili, who was drowned while bathing in a pond near West Lafayette.

Modern Actors Require Soft Music To Aid Love Scenes

Paris, July 25.—What is the trouble with many modern actors? They do not know how to say "I love you," so a violin has to play it for them.

That, in substance, is the point of Max Reinhardt, producer of "The Miracle." In an address to the Universal Society of the Theatre here Reinhardt said the theatre is menaced by the noise, rush and conventionalities of large cities.

He explained that spectators should be actors to the extent of sympathizing emotionally with the characters on the stage during the progress of the play.

"Both spectators and actors have been numbed by the mechanical existence we lead today."

"Passion and sentiments do not belong to our epoch. We have found it better to replace them by a series of conventional expressions that are now considered a part of our social equipment."

"We have uniform ways to smile, to sigh, to love. We have ready-made expressions for any and all occasions, just as we have ready-made suits for any and all sizes."

IMPROVEMENTS

(Continued From Page One)

pumping station has improved considerably, and it is planned in 1929 to bring the fire department completely up to the requirements of the insurance bureau.

No mention is made in Manning's report, which was sent to Malloy and Ruzzy by T. B. Sellers, manager of the bureau with a word of congratulations, on the lowering of the city's fire insurance rates because of the improvements but some word on the matter is expected soon.

The full report of the inspection bureau follows:

Water Supply

"Since our inspection in October 1924, conditions have been considerably improved, both around the pumping station and throughout the city. All wells have been cleaned out and repaired and there is no difficulty in securing a sufficient amount of water to keep storage reservoirs well filled."

"The old reserve steam pump which was in poor condition has been replaced by a new Worthington cross-compound duplex of one and one-half million gallons capacity. This pump is now used for regular operation and the one and one-half million gallon electrically driven pump held in reserve. Duplicate suction and discharge piping has been installed so that in case of a break in either all pumping facilities would not be put entirely out of commission. Boiler settings have been repaired and the physical condition of the plant generally improved by tearing out lath and plaster ceiling over the boilers, re-wiring of building in conduit and replacing the old wooden floor in the pump room by one of concrete."

"A 10-inch main has been laid from the pumping station through the manufacturing district to the south end of the city. The distribution system has also been reinforced in several places by the laying of cross-connecting lines, none of which are less than six inches. A number of new steam hydrants have also been installed on these lines."

Fire Department

"The personnel of the fire department has been increased from five to nine full paid men. There is now a chief, captain, lieutenant and six firemen. The men work on 24 hour shifts, with one hour allowed for meals. Four of the men are on duty in the house during the day and there are always five men sleeping there at night."

"The old Robinson pumper, 750 gallon capacity, has been replaced by an American La France triple combination of 1,000 gallons."

"A fire alarm system consisting of 10 alarm boxes distributed throughout the manufacturing district with punch recorder in the station has been installed. However the use of telephones would be relied upon throughout the remainder of the city."

"Additional improvements are contemplated as soon as finance will permit. Some are: The addition of more men to the fire department and the purchase of a ladder truck."

NAME HARRISON

(Continued From Page One)

the campaign his responsibilities as finance chairman of the gigantic General Motors corporation, Raskob began today on his new regime of "a full day's work for no pay," as he described it.

Raskob Full of Energy
He has no office hours, but he is to be seen either at the Baltimore or General Motors building offices at all hours. He left the Baltimore last night with Senator Gerry after 11 o'clock having arrived at his desk before 9 in the morning. There may have been more enthusiastic campaign directors in the past, but those who have watched Raskob in action question if there ever has been in American politics an equal amount of enthusiasm coupled with Raskobian energy and drive. The office messengers and stenographers already show some signs of weakening under the strain, but the young bloods of the Democratic party who have been more or less sitting around waiting for something to happen for eight years are responding to a "deliverance" and are whooping it up for their apparently tireless chief.

Shaping State Affairs

Albany, N. Y., July 25.—While his notification ceremony set for Aug. 22, Gov. Al Smith today was preparing to put state affairs in ten shape that for the next week or so

"The social code has spoiled even the actor, the man who makes a business of expressing sentiments. When some actors say 'I love you' the violin has to play soft music to make up for a lack of soulful vibration."

"Without the music you would not be able to distinguish the difference between the 'I love you' and 'How do you do.'"

"The actor of other days, ostracized by society, may have been a wandering bohemian, but he undoubtedly developed stranger and more powerful characterizations."

"Today the flesh is willing but the soul is debilitated and the actor's interest is really elsewhere."

"The spectator must be part of the play. It is a mistake to believe the actor forgets his audience as he works up to a strong climax."

"The thousands in the amphitheatre must be enthralled, trembling on the player's every word. Then he is enabled to cast aside all unnatural reserve and to give every ounce of his strength to the role."

Reinhardt believes, however, that the theatre will improve.

days he can devote himself almost exclusively to the preparation of the address he will deliver in formally accepting the Democratic presidential nomination.

The governor is finding that the preparation of an address in which he must deal exclusively with national issues is much more exacting

New York, July 25.—Plans to hold the formal notification ceremonies for Senator Joseph T. Robinson of Arkansas, Democratic vice presidential nominee, at Little Rock, Aug. 26, Robinson's birthday are tentatively under consideration by Democratic campaign managers.

Robinson was born Aug. 26, 1872. He will be 56 next birthday.

LABOR

(Continued From Page One)

for modification of the Volstead act to permit sale of beer and wine.

The coal strike may receive serious attention from the council. The miners union has made little headway in the fight against the operators and has now allowed local districts to make wage settlements at a rate below the \$7.50 Jacksonville scale. This is a sharp retreat from the position the union took when the miners walked out a year ago last April. The federation is planning to enlist strongly in the fight for regulatory coal legislation.

AL TO CONFER WITH RITCHIE

Will See Governor Friday
Night In New York On
Important Matters

Albany, N. Y., July 25.—Gov. Al Smith announced today that he will leave Albany shortly after noon Friday for New York City where he will confer that night with Gov. Albert C. Ritchie of Maryland.

It is understood the two executives will discuss the political situation in Maryland and some of the other border states.

The conference with Governor Ritchie is regarded as the most important one that Governor Smith will have with any of the Democratic leaders between now and Aug. 22, the date of his notification ceremony.

On Saturday the governor and members of his family will go to Canoe Place Inn, Good Ground, Long Island, where he will remain over the week-end, playing golf and swimming. Good Ground is a familiar spot to the governor. For many years the late Charles F. Murphy, leader of Tammany Hall, had his summer home there, and the governor was a frequent guest at the Murphy estate.

The governor was reluctant to announce his contemplated visit to New York.

"I hate to have the fact published that I am going to New York because it means a regular merry-go-round for me," he said.

He said he wanted to have a friendly visit with Governor Ritchie but he denied that he intended to incorporate any information given him by the Maryland executive in his notification address.

"I want to talk with Governor Ritchie and he wants to talk with me," the governor said. "There is no definite purpose in our visit except for a friendly chat."

SCORES INJURED IN TRAIN CRASH

Pennsy Employees Coming
Home From Picnic Are
Hurt In Wreck

Pittsburgh, July 25.—One thousand Pennsylvania railroad employees and their families, returning in a special train from the annual Pennsylvania outing at Canton, O., narrowly escaped death last night, when their train was wrecked in the Manchester yards, near Ontario street, at 9 o'clock.

Scores were injured, none seriously. Eight of the injured were taken to St. John's hospital, near the scene of the wreck. All went home after their injuries were dressed. Nearly all injuries were due to cuts from flying glass. Many of those slightly hurt left the train and went home in street cars and cabs.

The excursion was sidetracked by two freight cars, which jumped the track as the string of freight cars was passing the passenger train. One of the freight cars was demolished. The passenger coaches were not badly damaged.

The coolness of C. R. (Curly) Johnson, engineer on the special, saved the picnic train from disaster. Running swiftly through Woods Run, Johnson saw a freight car being backed down a siding, jump the rails and fall in the path of his train. He jammed on the air-brake, and brought the train to a stop.

DEPORTATION OF REMUS DELAYED

Given Until October 1 To
Prove He Should Stay
In This Country

Washington, July 25.—The labor department today granted George Remus an extension until October 1 to produce proof that he is a citizen of the United States and is not subject to deportation as an undesirable alien.

Remus appeared before the board of inquiry and stated that because of his recent difficulties he had been unable to produce certain records to establish his citizenship.

The records show that Remus was born in Germany and was brought to this country by his parents while an infant.

Doubt exists whether his father was naturalized in Chicago and it was upon this ground that the department sought to deport him.

Religious Issue Is Raised In Oklahoma But See Al Winner

New York, July 25.—First hand reports that the religious question had been raised against Gov. Alfred E. Smith in Oklahoma were brought to Democratic National headquarters here today by J. J. Shouse, of Kansas, member of the national advisory committee.

Shouse, a leader in the McAdoo campaign four years ago, has just completed a "swing around the circle" in the middle west.

"Oklahoma presents a real fight at the moment," he said in a written report. "If there was no religious issue there would be no fight in Oklahoma at all. The Klan there has been powerful, but the state is now emerging from Klan domination."

"Scott Ferris, the Oklahoma National committeeman, and other leaders who know the Oklahoma situation most intimately, say that Governor Smith will carry the state after the kind of campaign that will be carried on there."

ABOUT TOWN

Install Officers
Installation of officers was the main feature of a meeting of Goodwill encampment No. 111, I. O. O. F., held Tuesday evening at the hall, Broadway.

A. I. Getz was installing officer and the officers installed are: Chief Patriarch, William Rhodes; senior warden, James Goodwin; junior warden, Fred Smith; first watch, Austin Getz; second watch, Lawrence Strawn; third watch, A. H. Pultz; fourth watch, Charles Betts; outside sentinel, Mr. Renkenberger; inside sentinel, Mr. Pales.

City Hospital Notes

Mrs. Myrtle Fawcett, of Enon Valley, Pa., has been admitted to the Salem City hospital for surgical treatment.

These patients had their tonsils removed: Esther Herdle, of Washingtonville; Louise McNicol and Louis Follansbee, Salem, and Robert Rowe, East Palestine.

Three patients were discharged: Marie Whitcomb, Salem; Harry Walker, Canfield, and William Barbo, of Ellsworth.

Junior Order of Rose

The Junior order of The Rose, Women's Benefit association, will meet Thursday afternoon at the home of Mrs. L. O. Gibbons, 135 Woodland ave., for a watermelon party.

All members are asked to be present and the July dues will be received at this time.

Told of Trip

Miss Louise Goshen and Miss Mary Oesch gave talks about their recent trip to Yellowstone National park at a meeting of the Quota club Tuesday evening at the Elks home.

The next meeting will be in two weeks.

Willing Workers

The Willing Workers of St. John's A. M. E. church will give a lawn party Thursday evening at the home of Mrs. John Green, East Pershing ave.

Literary Program

Members of the Farm Bureau of Hanover township will give a literary program Saturday at Guilford grange hall.

State Divisions of Dairies and Plant Industry to Unite

Columbus, July 25.—Temporary consolidation of the division of food and dairies and the division of plant industry was contemplated today by State Director of Agriculture Charles V. Truax.

Septimus Mauer, Bowling Green, head of the feed and fertilizer department and Richard Faxon, Elyria, chief of the division of plant industry have proffered their resignations.

W. D. Leech, Columbus, chief of the division of food and dairies has been placed in charge of the division over which Mauer was chief.

Pointing out that, as the slack period in the work has been reached, and that money could be saved the state by allowing the positions to remain open, Truax stated that no successor will be chosen for Faxon and that Leech will direct two divisions.

ASSASSIN MAY ESCAPE DEATH

Obregonista Faction To
Demand Laborites Be
Ousted Instead

Mexico City, July 25.—Gov. Aaron Saenz, of the state of Nuevo Leon, arrived today from Sonora where he attended the funeral of the assassinated President-elect, Gen. Alvaro Obregon, and at once assumed leadership of the powerful Obregonista party which will probably dominate the new government.

Following the arrival of Gov. Saenz it was stated that a provisional president to succeed President Calles will not be elected by the special session of congress next month, but will be chosen by the new congress that will meet in September. The provisional president according to present plans, will serve until 1938. It had previously been proposed that a special presidential election be held next March.

Mexico City, July 25.—Possibility that Jose De Leon Toral, slayer of President-elect Alvaro Obregon, may escape death for his deed loomed today.

Leaders of the Obregonista faction believe that Toral was only a tool in the hands of the laborites. In a public statement they demanded the removal of all laborite officials from office, saying that members of this minority party had played upon Toral's fanatical religious views in such a way as to bring on the slaying.

In the same statement they said that removal of the laborites would be true justice and that the death of the assassin is not necessary.

The deposed laborite secretary of industry and commerce, Morones, is still in hiding.

about.

The Gaucho gives you the bolos! And Doug's feats with
the bolos outdo his exploits with the bow and arrow, the cut-
lass and the whip.

Comedy, "LOVE AT FIRST FIGHT"

MOVIES

"THE GAUCHO"
Saints and cutthroats, shrines and robbers' lairs are the fiercely contrasting motifs of Douglas Fairbanks as "The Gaucho," the new United Artists production, which opens at the Grand tonight.
The star has the role of a bandit chief, the leader of a horde of Gaucho riders, who take the mountains and occupy a lonely shrine, the whose wealth is the prey of the cruel usurper of the country. A madcap mountain lass (Lupe Velez), thrilled by the notoriety of the Gaucho chief, joins him enroute. News of the outlaw's presence reaches the usurper (Gustav von Seyffertitz),

HOUSE-WORK TIRED HER

Finds Aid in Lydia E. Pinkham's Vegetable Compound

Plymouth, Wis.—"I am one of the women taking Lydia E. Pinkham's Vegetable Compound and am proud to say it is good. I was so run down that I didn't feel like doing anything and my mother told me to try the Vegetable Compound and I did. It did me good. I do my housework and have a three-year-old girl to look after. I have told quite a few others to try the Vegetable Compound and I am willing to answer letters about it."—Mrs. Ed. Behn, R. 4, Plymouth, Wisconsin.

who put a price upon his head.
A beautiful girl of the shrine, (Eve Southern), whose healing as a child brought fame to the place, stirs strange emotions in the outlaw. The jealous mountain girl betrays him to the commandante (Michael Vavitch), who has placed his garrison in the city by the usurper's orders. A treacherous Gaucho lieutenant (Charles Stevens), dismisses the band on a false message, and the outlaw is captured. Witnessing the cure at the shrine from the touch of a plague-stricken beggar (Al MacQuarrie), the mountain girl understands the "girl of the miracle" for the first time, and too late tries to prevent the arrest. She rides off to bring the Gaucho band to the rescue.
From his cell the Gaucho chief sees the shrine girl and her protector, the good padre (Nigel de Bruiler) under arrest. He digs his way out and joins his oncoming riders. Outnumbered by the dictator's troops, the Gaucho stampedes a vast herd of steers and gains the city as the soldiers are routed. The shrine girl and priest are released from the scaffold. The dictator and commandante are taken by the Gauchos, and the outlaw rides away with the girl of his choice.
The Fairbanks feature with the comedy "Love at First Fight" will be at the Grand the balance of the week, beginning tonight.

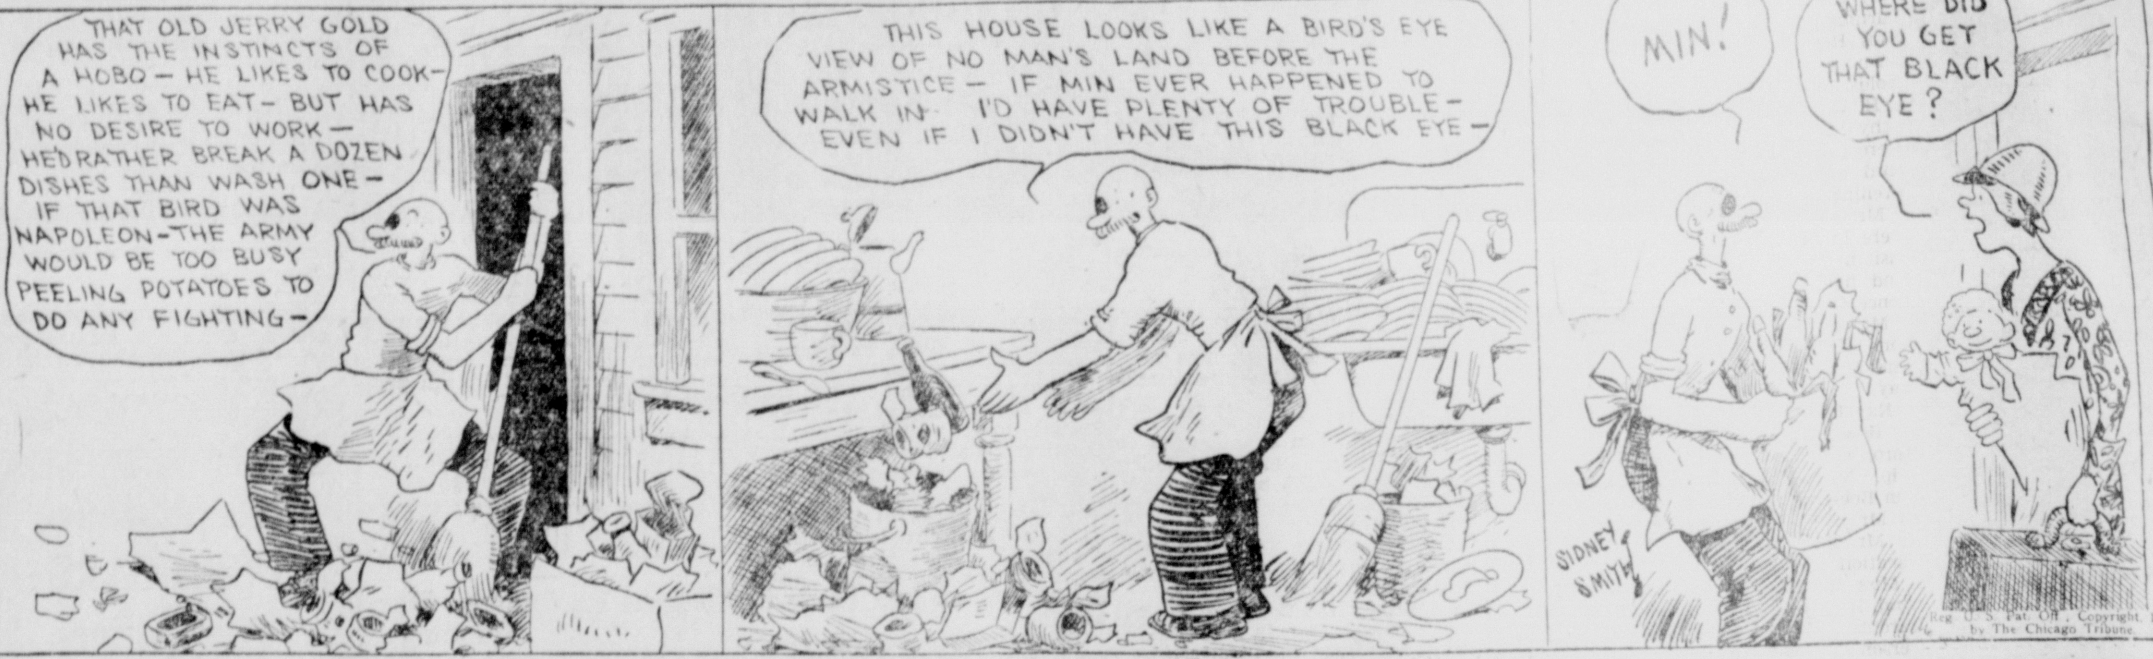

"FEEL MY PULSE"
At the State feature "Feel My Pulse" with Bebe Daniels will show tonight and tomorrow.
"Feel My Pulse" is a story about a wealthy American girl who has been brought up under the impression that her health is delicate and that the slightest exposure is apt to be fatal. She goes to a sanitarium, left her through the provisions of her uncle's will and finds it in the possession of rum-runners and bootleggers.
From that time on there is no let up in action and how she realizes that she isn't the invalid she imagines provides a thousand laughs.
Richard Arlen, one of the most popular of the younger leading men, again is seen opposite Miss Daniels. Arlen has the role of a young novelist. Also included in the cast are William Powell, as the leader of the bootlegging gang, Hume Cronin as the drunk and Charles Sellon as the caretaker of the sanitarium.
America turns out nearly 9,000,000 tin cans every year, and so consumes nearly half the annual output of the world's tin.

THE GUMPS—GUILTY OR NOT GUILTY?

THE HOME KITCHEN

By Jeannette Young Norton

Sand, Sea and Summer Sunshine
Riding the sea on all sorts of queer animals is quite the newest and most exciting summer sport. The water near shore is dotted with camels, horses, huge ducks, alligators, seals and sea lions. The creatures are rubber, air inflated, but quite startling in appearance, and all are legless. Bathing has an appeal in such companionship.
Fashion decrees the ensemble in bathing togs as in all other sport wear. Beach coats and capes have matching parasols, and beach bags, pouch and under-arm shapes, are rubber lined, with cosmetic pockets, and a glass, so a fresh complexion may be added after each dip. A famous marionette artist has designed the silks and chintzes used for the coats and parasols, and they are a study in animal and grotesque patterns. The coats and capes are well supplied with pockets.
The decolette bathing suits are among the most popular. A wee skirt falls over the tight-fitting trunks, and the back is cut very low.

STYLE EDICTS
Paris, July 25.—Negligees are by no means a negligible factor in the smart woman's wardrobe these days. For however full her engagement book may be, she knows that repose is quite as necessary to her beauty as her chic gown and thus sets an hour or two aside each day for "farniente." And this hour or two naturally call for appropriate wear.
Real French negligees come with the finest handwork, delicate embroidery, drawwork and real lace in most exquisite colorings, the sort of garments that can bring a thrill to the most practical and unromantic of her sex. There are bluish-pink garments and mauve ones, deep jacquinet-red lined with cyclamen and pale powder-blue over rose du Barry. Some are in georgette or chiffon, others in crepe satin or taffeta with handquilted borders.
One of the couturiers is showing some delightful teagowns with three quarter coats in pekiné-velvet, a fabric with velvet designs woven in a georgette foundation with full-length pleated slips of crepe de Chine. Soft honey-beiges, light greens, orange and green-blue are the favorite shades.
There are also lovely tea-gowns with satin slips over which are worn long coats of georgette with flowing sleeves. One is brocade lame with natter-blue georgette sleeves is edged with silver lace flowing sleeves. One in broad velvet has a deep band of shaded red marabou around the bottom and at the neck and wrists.

LOANS up to \$500

A man is often judged by his purpose in life. Washington's purpose was breaking the bonds of tyranny and the foundation of a free nation.
Lincoln's purpose was breaking the bonds of slavery and the preservation of the union of the Free States. These men accomplished their purposes.
Many another lesser known has accomplished his purpose by bringing contentment to someone. Shall we say that such a man is less great because of the humbler path of his life?
The purpose of The City Loan is to bring happiness to thousands of men and women by putting money into their hands for the accomplishment of their purposes.
Elmer C. Lugabill, Mgr.

MASSACHUSETTS TO STANDARDIZE HIGHWAY SIGNS

Signal Systems Included In Engineering Plans For Eastern State

Boston, Mass., July 25.—Initial steps to standardize traffic signs, lights, marks, signal systems and designation of "through routes" or arterial highways throughout Massachusetts, achieving a uniformity based on sound engineering principles, have already been taken.

In order to accomplish these purposes the Department of Public Works has secured the services of the Albert Russell Erskine Bureau for Traffic Research of Harvard University to make a survey and to establish an agency to carry out the provisions of the proposed plan.

This bureau has recently successfully completed traffic surveys in Boston, Chicago, Los Angeles, San Francisco, Providence, New Orleans and Knoxville.

Work on the project was begun with the recent passage of Chapter 357, Acts of 1928 in the Massachusetts legislature. The purpose of the bill was the establishment of a basic uniformity in signs, signals, and traffic control devices; the maximum safety and facility of through traffic movements lying within the limits of cities and towns; and the creation of a traffic engineering agency in the department of public works to cooperate with local officials in developing safe and uniform methods of traffic control.

Designate Routes

The primary functions of the bureau is the erection of basic standards for signs, signals and markings together with the designation of state routes within cities and towns as "boulevard stop" arteries. It is expected that there will be prepared a "Commonwealth Sign and Signal code" to give clear indication to local officials of the requirements of the department and will make possible more intelligent local control planning.

In order that the proposed code may be adopted with a maximum of cooperation from local officials, the following factors were being considered:

First: The present system of signs, signals and marking in use by cities and towns in the commonwealth.

Second: Existing system of signs and markings used upon the highways of the commonwealth.

Third: Proposed national standards resulting from current studies of the national engineering conference committee, and the department of commerce.

It is believed that the greatest good will result if the proposed code for signs and signals be drafted with the full cooperation of local officials charged with the functions of their respective communities. William F. Williams, commissioner of public works plans to communicate with these local officials, requesting that they assist the department by giving information regarding their local difficulties.

Local Problems

The designation of state routes within cities and towns as "boulevard stop" arteries, will require a careful study of local routine problems and the cooperation of local officials. The state traffic engineering department will undertake immediately to gather full information as to the need for protection of the major trunk highways outside of cities and towns and the proper routing of such highways through incorporated communities.

Another purpose of the act is to provide a responsible engineering agency capable of giving constructive leadership on sound methods of traffic control and administration. To realize its full value, the agency would have to take initiative steps to encourage backward communities in making standard installation of signs and signals.

The character and functions of the traffic engineering division should also make it a valuable assistance to the official divisions of the commonwealth charged with maintaining safety and convenience upon public highways.

Every effort is being made by the bureau to expedite this work in order that the cities and towns contemplating the installation of traffic lights, signs and signals may not be delayed.

Moscow Stores To Exhibit Only Fakes In Show Windows

Moscow, July 25.—State and cooperative stores have been ordered to stop displaying real goods in show windows because of the shortage of manufactured goods which are being shipped to the provinces to satisfy demands of enraged peasants. Articles taken from stock shelves for purely advertising displays also deteriorate the order states, and cannot be sold at full value.

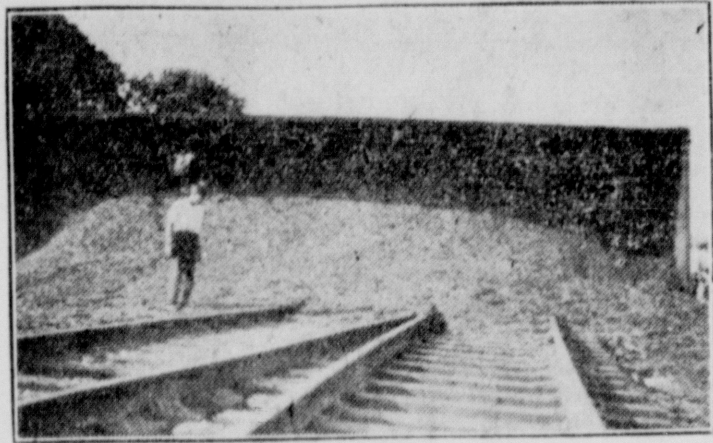

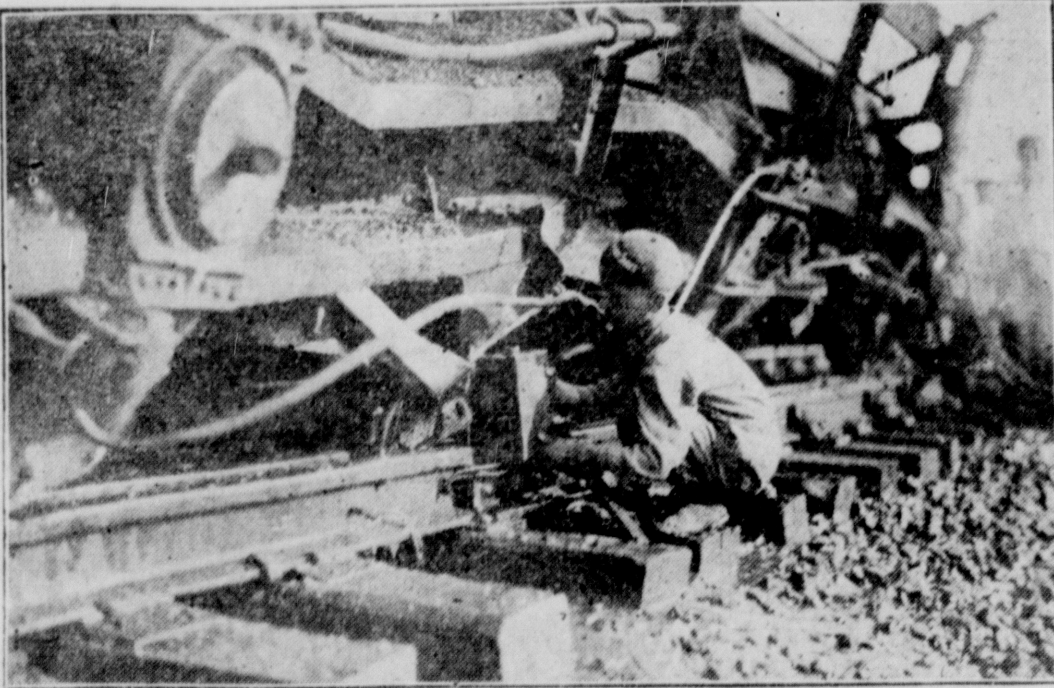

"Beautiful" dresses in fashion shops will be nothing but paper. Even hats and shoes will be faked if shown at all. Busts of Lenin, draped with red flags, are becoming more conspicuous as window displays than ever before.

The only exception to the order are jewelry and other shops where goods are sold directly out of the display windows.

Prices are soaring. The ruble, officially stabilized at 194 to the dollar, is worth less than half of its legal value. Several state commission shops are selling goods only for foreign currency, despite the fact that private traders are prohibited from accepting any but Soviet currency for goods.

When Pennsy Cars Left Rails At Wooster

Pictured above are two of the Pennsylvania railroad cars which left the rails at the Henry street bridge in Wooster late Monday, tying up all traffic on the lines for more than four hours.

Twelve of the cars were filled with slack coal which was scattered over all three tracks, as shown in the picture below. The remaining three cars were tankers, filled with oil.

Egg Laying Contest Staged By College

Storrs, Conn., July 25.—The international egg-laying contest at the Connecticut state agricultural college here had developed 197,467 eggs when 36 weeks of competition had elapsed, and the contest directors were looking for new records because this year's group of hens was

running 11,350 eggs above the previous record for the time.

And foreign hens were up in the running, a pen from Catforth, England, holding first place among White Wyandottes and a pen from Ayton, Ontario, second place among the same breed.

Hens are here from practically every state along the northern border of the United States even including Oregon and Washington. This is the 17th year the contest has been on, and a new year of the contest starts in November.

Germany Dethrones 1928 Beauty Queen As Crowds Complain

Berlin, July 25.—Germany has just gone through another revolution.

The beauty queen of this year, Fraulein Margot Langer, has been dethroned.

She was elected and crowned re-

cently at Luna Park, but the mob howled and raged when her election was announced and cried "fraud."

It developed that her election was bought. The votes were cast not according to the principle of "one person, one vote," but each voter cast as many votes as he had purchased entrance tickets to Luna Park. Margot's backers, a movie company, were liberal and Luna Park never sold so many entrance tickets in its history.

An arbitration court has decided now that Margot's election is null and void and has charged the Reichsverband Deutscher Schöheitswettbewerbe with the task of supervising a new election. Margot must return 1,000 marks and an automobile.

FRENCH PAINTER LIVES IN CAVE

Costs Him But \$24 Each
Year For Expenses At
Place Near Nice

Paris, July 25.—Twenty-four dollars is all that John Oslund has in any one year to feed and clothe him. Some years he manages to save half of it. How does he do it? First of all, John pays no rent. He lives in a cave between Nice and Grasse. He has occupied the same cave for five years out of eight of landlords and other component parts of civilization.

His tailor bills never bother him. John has two suits. One is his birthday suit. In that he appears every day. The other suit consists of a pair of corduroy trousers, a blue shirt and a belt.

Must Dress For Town

The latter getup he is obliged to wear on his trips to Grasse, where he goes once a month to receive his allowance at the post office, also to make such few purchases as he two dollars and few needs dictate.

On his "estate" John has a little garden patch where he raises turnips. He believes they will help him attain 150 years. He still has 93 years to go.

John sleeps on a bed of pine branches. He uses moss and leaves for a pillow. He has never been sick, except once, but that was before he began his hermit existence in the Maritime Alps. Just a slight cold, he explains.

Wants No Money

How does he spend his time—and money? By painting and on painting materials. John firmly believes that one day the world will recognize him as the world's greatest painter since Rembrandt and Rubens. Not that he expects to make any money out of it. He does not want money, and would feel hurt if anyone ever offered to buy one of his canvases.

It was five years ago that John retired from the world to paint "in peace." He expresses his determination to stay retired until the world makes a broad avenue to the entrance of his cave.

Oslund, a Swede by birth, is a highly cultured man. He was educated in Stockholm, and holds a Ph. D. degree from the University of Upsala. His deep knowledge on a variety of subjects is amazing, and he speaks six languages fluently in addition to his native Swedish.

Are You Ready

When your Children Cry for It

Baby has little upsets at times. All your care cannot prevent them. But you can be prepared. Then you can do what any experienced nurse would do—what most physicians would tell you to do—give a few drops of plain Castoria. No sooner done than Baby is soothed; relief is just a matter of moments. Yet you have eased your child without use of a single doubtful drug; Castoria is vegetable. So it's safe to use as often as an infant has any little pain you cannot pat away. And it's always ready for the crueler pangs of colic, or constipation, or diarrhea; effective, too, for older children. Twenty-five million bottles were bought last year.

The automatic "FLAVOR ZONE" oven knows when your roast is browned

A roast must first be properly browned, and then cooked in a lowering temperature to draw the flavor from this delicate outer crust into the meat. The Westinghouse Electric Range does this automatically.

Before you leave home, say at 10 o'clock in the morning, you put your dinner—roast and vegetables—in the oven. You make two simple adjustments as predetermined for you by Westinghouse cooking experts, close the oven door and forget about the cooking until dinner time.

At the proper time the FLAVOR ZONE oven will auto-

matically turn the heat on and brown your roast to perfection. Then it will automatically turn itself off and continues cooking in a lower temperature until the whole of the meat is uniformly and deliciously done.

No other range, either fuel or electric, performs first the browning operation and then the cooking operation under full automatic control.

Let us demonstrate FLAVOR ZONE Cooking—the new domestic science—to you, or if more convenient, phone or write for special booklet.
